Thank you for the opportunity to represent the Oregon Dental Association and Multnomah Dental Society. The following are the highlights from our meeting.

1. Congratulations go to Dr’s. Thomas Tucker and Joni Young for their election to ADA Alternative Delegates at Large. Dr. Tucker will serve a 2 year term 2012 to 2013. Dr. Young will serve a 3 year term 2012 to 2014.

2. Congratulations to Dr. Jean Pacewic from Multnomah Dental Society; she was appointed to the Annual Meeting Council.

3. Dr. Burton, chair of the ODA Leadership Development Committee, facilitated the Mega-Issue discussion. The discussion focuses on governance. The size, skill, and distribution of the Board of Trustees. At the base of the discussion, is the question, “does the ODA have the most appropriate formation for its board and the HOD”? Some concerns were raised as to less persons for cost containment, more diligent members (i.e. no social loafing.....another word for showing up to the meeting and not doing the homework and knowing what is expected from you by the people you are representing!) And, of course there are multiple arguments for less/new/different verse the same! We really need input relative to the potential changes of the number of persons on the Board of Trustees and potentially the House of Delegates. What you think and want is really important to the future of the dental society.

4. Each component described their activities for “Give a Kid a Smile.” The different of partnering of programs was great to hear from across the state.

5. Trustees were provided a list of non-paid members. Please check your records and make sure you membership is up to date; please don’t stay “on the list!”

6. Mission of Mercy 2011 Video is almost available at the ODA site. The video was great and showed amazing personal stories of success. Please consider taking the time to see it.
Now available.

O’Brien CAD Abutment

The O’Brien CAD Abutment is now available for all major implant systems, including; Nobel Biocare, Straumann, Zimmer, Astratech, Camlog, and Biomet 3i.

The O’Brien CAD Abutment is designed completely in house by one of our professional dental technicians using state-of-the-art technology.

**Emergence Profile, Angulation, and Margin Depth** requirements are determined by our knowledge of the final restoration, and your preferences.

For more information contact Alex Rugh 541.754.1238 or implants@obriendentallab.com.
February is a very, very busy month for MDS staff. There are more projects being accomplished than any other month; Children’s Health Fair at Lynchview Elementary School with free dentistry, then the Give Kids a Smile program, and monthly meeting, plus all the other duties of the MDS office. These events really take a tremendous amount of time and energy. Thanks for volunteers, volunteers and more volunteers. None of these projects could be accomplished without them. A big thank you to all.

The Portland Tribune, a non daily newspaper printed a front page story with photos concerning volunteers in the City of Portland. It stated that the city is number two in the nation for volunteering. The article did not elaborate on the method of officially keeping track of man hours or the method of determining how Portland was selected for the number two position.

I am an octogenarian, thus, to some degree, a source of information regarding history of people helping other people, who are called volunteers today. As far back as I can recall people always were ready to help others without any pay or reimbursement. Volunteering is a basic fabric of human nature, an intrinsic portion of man’s being. Statistics were not recorded years ago and accurately today. I could write a book about the kindness of people freely helping others. I recall as a small child of my dad with a group of other men helping construct a chicken house that would hold five to six hundred chickens. I could relate many, many more stories of acts of kindness. Even today people risk their lives to help others just think of 9-11 or other disasters, such as earthquakes or Japan’s nuclear explosion. Nations have responded with all types of aid for unfortunate people we, as dentists, know about volunteering at all levels in and out of the office. Dental organizations and almost all others could not exist without high degree of volunteers, officers, board and committee members, civic, social, schools, churches and a long list of other organizations.

May I relate one more true story; as a child and as a teen my mom traded eggs for dentistry. I would take two dozen fresh eggs to the dentist for a filling. He would always be so grateful to get those fresh eggs. Yet he was the one being kind, gracious and thoughtful to my needs. News papers need to sell papers, writers need to sell stories to exist, but the Tribune story is not new. People have always helped others, whatever you wish to call acts of kindness.

Planning for the MOM in Southern Oregon (Medford) is underway for September 13-16 2012. We hope to have you there volunteering!

7. The ODA received monies for membership projects from the ADA Membership Program for Growth. One project is planned as a non-member host social event for the tri-county area. The other project is specifically at the ODC and is slated as the New Dentist Reception.

A special thanks to our other Trustees, in completion of this report.
MDS 2012 BOARD OPEN POSITIONS

Nominations are now being accepted for the following MDS positions for the 2012 election year. Elections will be held at the Annual Awards Dinner and table clinic, May 16, 2012. Interested members should send their CV’s and letter of interest to:

Nominations Chair c/o MDS
10505 SE 17th Ave.
Milwaukie, OR 97222

MDS would like to thank all the board members for their service to MDS and its members! Thank you!

Nominee: Richard Garfinkle, DDS, MSD
Athena Bettger, DMD

MDS would like to thank all the board members for their service to MDS and its members!

TABLE CLINIC PRESENTERS WANTED

We are seeking Table Clinic presenters for our annual meeting.

The May 16, 2012 General Membership Meeting and Annual Awards Dinner will be devoted to table clinic presentations. If you are interested in running a table with your presentation, please e-mail the following information to lora@multnomahdental.org:
- Name & Degree
- Phone Number
- Title of Presentation
- A Brief Description of your presentation

ODA HOUSE OF DELEGATES 2012

MDS is currently seeking members to serve as delegates at the 2012 ODA House meeting in September.

Come, bring your family and enjoy Eagle Crest Resort in Redmond, OR. As the largest component in the state, the Multnomah Dental Society will need 21 delegates to represent our component. Be the voice that represents Multnomah County area dentists.
- September 7-8: ODA House of Delegates meeting at Eagle Crest

Eagle Crest reservations/ Central Oregon visitors information. Call Eagle Crest at (800) 682-4786 or (541) 923-2453 and tell them you're with the ODA.

To learn more about the House of Delegates as well as what’s involved with volunteering as a delegate, visit the ODA website www.oregondental.org to download the Delegate Handbook.

To volunteer as a representative for MDS please call Lora Mattsen at 503-513-5010, e-mail:lora@multnomahdental.org

MDS AT THE ODC

MDS will be at the ODC in our usual spot just outside the vendor hall across from check-in.

We welcome you to stop by, say hello, pick up information for upcoming events and programs. You can even get a new member photo taken for our annual member directory and take home some goodies!

See you there.

Lora Mattsen, MDS Executive Director
Kama Solevad, Program Coordinator
OHSU DENTAL STUDENT SERVICE TRIP TO THE PHILIPPINES

Jane Xing, DS4

The OHSU School of Dentistry chapter of Delta Sigma Delta is sending five lucky students to Manila, Philippines this spring break to do a dental service trip. We will be conducting sealants cleanings, and extractions to those in need. In addition, we will provide oral hygiene education and supplies to children who do not have access to dental care. This is a once in a lifetime opportunity for us to gain exposure to real world dentistry. In addition, we will be able to serve some of the most under served and underprivileged people in the world. Reports from a National Oral Health Survey in the Philippines reported urgent needs with 97% of 6 year olds with dental caries and 84.7% with symptoms of dental infection. Last year, our group of students served over 550 children in one week and we hope to serve even more this year.

We are accepting both monetary and supply donations. The cost for each student will be $1,500. Donations are tax deductible! Supplies we need include: gloves, 2x2 gauze, fluoride varnish, topical, Q-tips, needles (short and long), toothbrushes, toothpaste, cotton rolls, and floss. If you have any further questions or would like to speak with one of the students attending the trip please feel free to contact Jane Xing (541) 514-4763.

We appreciate your support and look forward to hearing from you.

SUPPLIES NEEDED:

- gloves
- 2x2 gauze
- fluoride varnish
- topical
- Q-tips
- needles (short and long)
- toothbrushes
- toothpaste
- cotton rolls
- floss
- monetary donations

Business Solutions for Dental Professionals
What an incredible month February was in celebration of National Children’s Dental Health Month. Multnomah Dental Society has sponsored, for the past several years, two events to spotlight this important month. It is important because there are still so many children in our community who are in need of oral health care and are not able to receive it or have limited access.

We begin planning these events
several months in advance and it is always so rewarding to see the outcome and success. This year Give Kids A Smile was held on Friday February 3rd in partnership with OHSU SOD, Creston Dental Clinic, Boys and Girls Clubs of Portland, MDS members and many, many volunteers.

The ADA, along with national sponsor, Henry Schein, donated supplies, which are very appreciated, as not every GKAS program receives these products. It is something that has to be requested well in advance. These free products are necessary for us to be able to continue this event. Lee Lehmann, the

local Schein district manager was on hand at the dental school for the event and got to witness the donated products going to good use.

The dental students and faculty were great as always. They were very organized and focused which allowed for great patient flow and children served.

Receiving a grant from the Dental Foundation of Oregon allowed us to secure mobile dental vans for prescreening and x-rays on as many children as possible on two separate dates. This allowed for treatment to begin right on time at 8:00 am. MDS would like to sincerely thank the DFO for their continued support given to us by providing this grant. There were many children who were not able to get

Photo above: The Boys and Girls Club staff and kids waiting for x-rays at OHSU SoD.

pretreatment radiographs so the x-ray department at OHSU was also in full swing that morning. The event began at 8:00 a.m. and the last bus left by 1:00 pm. It was a very productive five hours.

The event totals for GKAS included 266 kids receiving $52,343 in free dental care. Each child at the dental school received a sack lunch, entertainment provided by PSU pre-dental students and a new toothbrush, paste and floss to go with their dental care. It couldn’t have turned out any better.

Thanks to all of those who contributed, time, money, product and service.

Following that event on Friday, we headed over to Lynch View Elementary to set up the gymnasium for our annual Children’s Health Fair which was held on Saturday, February 4th. Continued on page 10
The Children’s Health Fair has been sponsored by MDS for over 25 years. It has grown and it seems that every year it gets bigger and better. This year was number seven at Lynch View where we screened 265 children for dental needs. Many needed some sort of treatment which was done on one of the mobile dental vans parked in front of the school. Along with dental screenings and care, there were several other health screenings and resources provided. Other services included, immunizations, vision, hearing and lead poison screenings. There was a variety of other health and safety resources provided to these children and their families. These services included, proper nutrition, car

Photo top: Principle of Lynch View Elementary School, Lynn Blevens and some of her students attending the Fair. Photo below: PSU Pre-dental students put on a show with costumes and all!
seat safety, Healthy Children information and NW Family Services to name a few. Entertainment and goodie bags including toothbrush, toothpaste, floss and popcorn were given to each child. Every family in attendance received a sack lunch that was prepared by the school cafeteria cook. Balloon sculptures were a favorite for young and old.

A total of $29,681 worth of free dental work was

CHF-Facts!

Heres a brief list of services that were provided at the 2012 fair!

• Dental screening and treatment
• Vision tests
• Hearing tests
• Immunizations
• Lead poison screenings
• Fire safety demos
• Car seat safety info
• Nutrition information
• Civic services and programs
CHILDREN’S HEALTH FAIR 2012 continued from pg 11

provided between the hours of 10 a.m.-2 p.m.

Volunteer dentists included:
David Wilson, DMD
Deborah Struckmeier, DMD
Patricia DeMasi, DDS
Kurt Ferre’, DDS
Andrea Beltzner, DMD
Megan Sapp, DDS
Allan Pike, DDS.

There were several OHSU dental students providing the screenings along with PSU pre-dental students helping to assist and provide oral hygiene instructions.

There are many groups within
the community who participated and helped make the event the biggest one so far. It was to be over at 2:00 p.m., but children were still receiving care at 3:30 p.m. Thank you, Everyone who contributed. We couldn’t have done it without all of the great support.

The bottom line for both events was 532 children receiving $81,829 worth of free dental care, not to mention all of the other valuable information and resources they got. It was a busy, productive and long weekend. But worth every minute!

Thank you everyone for your support.

Photos clockwise from top left: Lora Mattsen and Connie Masuoka, DMD stop for a photo.
Dr. Masuoka and raffle winner, Sarah, with her new X-Box.
Megan Sapp, DDS one of our volunteer dentists working her shift on the dental van.
Dr. Kurt Ferre' and assistant on the dental van.

Photo opposite page: Approximately 525 lunches were served to children and families attending the fair. Some families waited hours for immunizations and dental care so the free lunch was a very important and appreciated part of the days events.
CRESTON CORNER
Erica Soto
Administrative Director FCCDC

Some of you may read Creston Corner each month and ask yourself “how do they do it?” I ask myself the same question every month. Most of you know that Creston had a somewhat of a rescue beginning. Walking into the clinic today, you’d never know that just over 2 years ago, Creston was slated to close. So, the secret to our success…… it’s YOU! March’s article is dedicated to recognizing the Creston team that makes our clinic ‘happen’ every day. I often explain the network of Creston volunteers and funders as a “patchwork quilt.” Each month our quilt grows larger, more colorful, and increases in richness. It is so fulfilling to work with such an amazing, passionate group of volunteers that make our work possible. And just like a ‘patchwork quilt’ each piece plays a vital part in our mission and overall success. Thank you for your contribution to Creston!

Thank You!

The ODA’s endorsed team of professionals for risk management and insurance; providing life, disability, professional liability and businessowners coverage for more than 25 years.
The general membership meeting in February was very interesting and well attended. It was unfortunate that the projector would not connect with the computer to allow for full screen viewing of the great presentation. Technology at its finest (and worst). Dr. Allan Pike was a professional in every way and the course was presented very intimately using only his laptop computer. Attendees gathered around the computer as Dr. Pike gave his wonderful presentation via his laptop. There was great interaction with the members and it ended up working out quite well.

The course discussed pediatric dentistry and the use of hypnosis. His power point included videos of hypnosis in use for dental patients. Following the presentation, Dr. Pike answered questions about the process. There were several new dentists in attendance as well as OHSU dental students. It is always nice to see new faces with the regular returning ones.

The meeting this month (March) will cover information on taxes and other financial issues as it relates to dentistry. It will be on Wednesday, March 21st at the ODS Plaza. There will be no meeting in April due to ODC and the final meeting for MDS will be on May 16th at the MAC club. Please see the enclosed registrations for these two final meetings of our year. I hope you will consider attending both of these meetings~Bring a friend!

What I believe

“I have been very fortunate in my life and it is important for me to give back. The DFO helps many more people than I can in my office as an individual. It’s good for Oregon, and it’s good for dentistry. That’s why I joined the Cornerstone Society.

By including the DFO in my estate plans, I am helping ensure a healthier future for thousands of underserved children, and creating a legacy that honors my family and my profession.”

For information about joining the DFO Cornerstone Society, contact Judy Edgerly at: foundation@smileonoregon.org or call us at 503-594-0880 www.SmileOnOregon.org
